

Introduction to Web Publishing for Non-Programmer

What is a database?

**“A database is a computerised system
that makes it easy to search, select and
store information..”**

**Source: BBC
Website**

“A **database** is made up of a collection of **tables** which relate to each other for storing and managing data entries (**records**), organised by rows and columns.

Introducing Airtable

Create, your way

Part spreadsheet, part database, and entirely flexible, teams use Airtable to organize their work, their way.

14-day pro plan trial ✨

Good news! Your workspace will receive a **14-day free trial** of our **Pro plan**, which includes:

- ✓ Increased record & attachment limits
 - ✓ Extended revision & snapshot history
 - ✓ Extended functionality with blocks
 - ✓ Advanced calendar features
 - ✓ Custom branded forms
 - ✓ More colors and styling options
 - ✓ Personal views
- Priority support** Not available during trial
- ✓ And more!

The Field Types Found in Airtable

- | | | |
|---------------------|---------------------|-------------------|
| 1. Single Line Text | 9. Attachment | 17. Created Time |
| 2. Long Text | 10. Checkbox | 18. Modified Time |
| 3. Date | 11. Multiple Select | 19. Formula |
| 4. Phone Number | 12. Single Select | 20. Autonumber |
| 5. URL | 13. Collaborator | 21. Count |
| 6. Number | 14. Duration | 22. Link |
| 7. Currency | 15. Email | 23. Lookup |
| 8. Percent | | 24. Rollup |
| | | 25. Barcode |

A database can be used for representing and tracking people, things, events. and transactions.

- People (e.g. students, employees, customers, donors, volunteers)
- Things (e.g. properties, stocks, products, books)
- Events (e.g. camplanigns, courses, conferences)
- Transactions (e.g. billings, orders, tasks, donations)

Learning from examples.

Simple To Do List & Task Management

#CREATIVE PRODU... #ENTREPRENEU... #HEALTH AND SELF-IMPRO...

A simple to do list and task management base for all those tasks you need to manage. This base features an overarching to do list, where you can set due dates, priority levels and categories for...

Natalie Hands 7 months ago

The screenshot shows a public shareable view of an Airtable base. The title of the base is "SIMPLE To Do List & Task Management". The interface includes a sidebar with navigation links like "To Do's", "To Do List", "Organized By Due Date", "Organized By Priority", "Calendar View", and "Completed Tasks". A main table view displays 8 records with the following data:

	Name
1	High priority task 1
2	High priority task 2
3	Medium priority tas
4	Medium priority tas
5	Low priority task 1
6	Low priority task 2
7	Task 1
8	Task 2

Below the table, there is a button labeled "Explore the base →". The base has been updated 7 months ago and copied 613 times. It features a dark header with decorative icons and a dark footer with social sharing options.

The screenshot shows a task management application interface with the following elements:

- Header:** A yellow header bar with the title "01 To Do List & Task Management".
- Top Right:** A user profile icon with a pink circle, a notification bell icon with a "3" badge, and other navigation links.
- Left Sidebar:** A sidebar titled "To Do's" with a dropdown arrow and a plus sign. It includes a search bar labeled "Find a view" and a list of views:
 - To Do List
 - Organized By Due Date
 - Organized By Priority
 - Calendar View
 - Completed Tasks** (selected, indicated by a checked checkbox icon)
- Bottom Left:** A message "0 records".
- Right Side:** A large grid area for viewing tasks. At the top of the grid are filter buttons: "Color", "Prior...", "Due Date", and "Category". Below the grid, there is a table structure with columns for color, priority, due date, and category.

- 1. Sort** single or multiple fields.
- 2. Group** entries by a single field or multiple fields to create data segments.
- 3. Filter** entries by single or multiple fields as searching conditions.

Use sort, group, and filter to search for information in a table.

HELP ?

This screenshot shows a task management application interface. At the top, there's a blue header bar with the title "To Do List". Below the header, there are tabs for "Tasks" and "People", and a search bar labeled "Find a view". A sidebar on the left lists several view options: "Priority Rated", "By date", "Completed Tasks", and "Kanban by Priority", with "Kanban by Priority" being the selected view, indicated by an orange border around its button. Below the sidebar, there are buttons for "Add a view" and four other view types: "Grid", "Form", "Calendar", and "Gallery". The main area displays a Kanban board with three columns. The first column has one card labeled "Priority task 1". The second column has two cards: "Medium priority task 1" and "Medium priority task 2". The third column has one card labeled "Priority task 2". Each card has a small red "+" button at the bottom right. Above the cards, each column has a color-coded label: "Medium" for the first, "High" for the second, and "High" for the third. At the bottom of the board, there are three "3 records" labels and three red "+" buttons. On the far right, there are buttons for "SHARE" and "BLOCKS". The top right corner of the screen shows a user profile icon with a "3" notification badge, a bell icon, and a help icon. The overall interface is clean and modern, using a light gray background and white text.

This is a screenshot of a 'Form for Entering Tasks' in a digital workspace. The interface has a blue header bar with the title 'To Do List' and a checkmark icon. In the top right corner, there are links for 'HELP', 'SHARE', and 'BLOCKS', along with a user profile icon showing a notification count of 3. The main content area features a toolbar with 'Tasks' and 'People' buttons. Below the toolbar is a section titled 'Form for Entering Tasks' with a pink background. On the left, there's a 'Fields' section with a 'remove all' link and a note to 'Drag and drop fields here to hide'. A button to '+ Add a field to this table' is also present. The central part of the form contains a large dashed box for adding fields. Inside this box, there's a 'Attachments' section with 'Attach file' and 'Drop files here' buttons, and a 'People involved' section with a '+ Add' button. At the bottom of the form is a large blue 'Submit' button.

#EVENT PLANNING

Even the most organized and experienced event planner can get overwhelmed by managing events. Successful event planning requires juggling and coordinating many moving parts at a time—from securing the event locations to planning the budget to finalizing the speaker schedule. Most event management software, however, is too rigid to keep up with the fast-paced world of event management.

This event planning template helps you organize all of those important details in one place so you can ensure that everything runs according to plan, whether you're managing corporate events, large scale events like trade shows or conferences, special events like weddings or small-scale social events like family get-togethers. And by creating different views, everyone on your team, from the event manager to the catering manager to the audio-visual equipment team, can see exactly what matters to them, and ignore the rest.

The screenshot shows a Notion database titled "Event planning". The main interface includes a header with tabs like Schedule, Event locations, Topics & themes, and others. Below the header is a toolbar with various icons. The main content area displays a table with six rows of data. Each row contains a number, a topic name, a start date/time, a count, and a "Field 4" column. A modal window titled "Venue" is open over the table, listing categories such as Activity, Start, Type, Speaker(s), Topic / theme, and Location. At the bottom of the modal are "Cancel" and "Save" buttons.

Bootstrap

Build responsive, mobile-first projects on the web with the world's most popular front-end component library.

Bootstrap is an open source toolkit for developing with HTML, CSS, and JS. Quickly prototype your ideas or build your entire app with our Sass variables and mixins, responsive grid system, extensive prebuilt components, and powerful plugins built on jQuery.

[Get started](#)

[Download](#)

Currently v4.3.1

2

<https://getbootstrap.com/>

[Getting started](#)[Layout](#)[Overview](#)[Grid](#)[Utilities for layout](#)[Content](#)[Components](#)[Utilities](#)[Extend](#)

Overview

Components and options for laying out your Bootstrap project, including wrapping containers, a powerful grid system, a flexible media object, and responsive utility classes.

Containers

Containers are the most basic layout element in Bootstrap and are **required when using our default grid system**. Choose from a responsive, fixed-width container (meaning its `max-width` changes at each breakpoint) or fluid-width (meaning it's `100%` wide all the time).

[Getting started](#)[Layout](#)[Overview](#)[Grid](#)[Utilities for layout](#)[Content](#)[Components](#)[Utilities](#)[Extend](#)

Grid system

Use our powerful mobile-first flexbox grid to build layouts of all shapes and sizes thanks to a twelve column system, five default responsive tiers, Sass variables and mixins, and dozens of predefined classes.

How it works

Bootstrap's grid system uses a series of containers, rows, and columns to layout and align content. It's built with [flexbox](#) and is fully responsive.

[Popovers](#)[Progress](#)[Scrollspy](#)[Spinners](#)[Toasts](#)[Tooltips](#)[Utilities](#)[Extend](#)[Migration](#)[About](#)

Bootstrap “spinners” can be used to show the loading state in your projects. They’re built only with HTML and CSS, meaning you don’t need any JavaScript to create them. You will, however, need some custom JavaScript to toggle their visibility. Their appearance, alignment, and sizing can be easily customized with our amazing utility classes.

For accessibility purposes, each loader here includes `role="status"` and a nested `Loading...`.

Border spinner

Use the border spinners for a lightweight loading indicator.

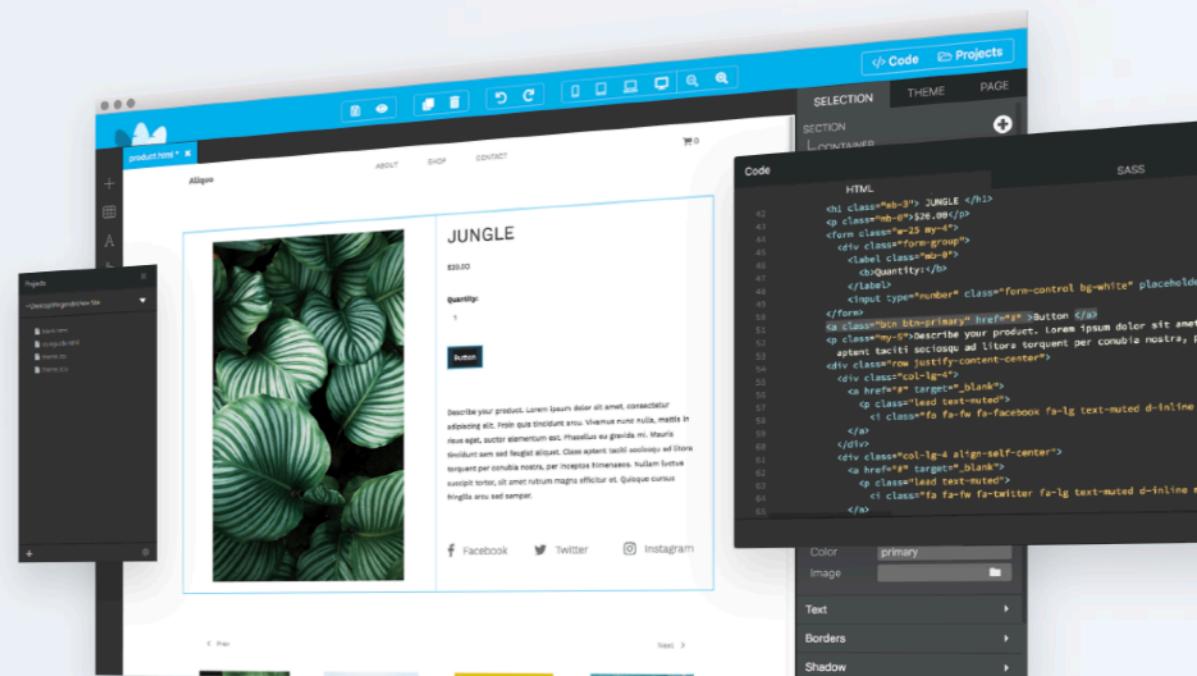

Pingendo: A Bootstrap Layout Tool for Non-Programmer

Pingendo Bootstrap 4 builder

Design, build and deploy web pages in a flow.

Pingendo is a modern tool for designers, developers and web agencies. Intuitive as stacking blocks, powerful as a text editor.

This screenshot shows the Pingendo web editor interface. The top bar includes standard Mac OS X window controls (red, yellow, green) and the application name 'Pingendo'. Below the title bar is a toolbar with icons for file operations (New, Open, Save) and text styling (Bold, Italic, Underline, Strikethrough, Text Color, Font Size, Alignment, Insert Image, Insert Link, Insert Effect). To the right of the toolbar are icons for mobile, tablet, laptop, and monitor devices, followed by a folder icon. The main workspace is titled 'Untitled.html*' and contains the word 'Brand'. A navigation bar at the top of the workspace has 'Home' and 'Gallery' buttons, with 'Gallery' being the active one. On the left side, there's a sidebar with sections for 'SECTIONS', 'COMPONENTS', 'HEADERS', 'CONTENTS', 'FOOTERS', and 'FORMS', each containing a grid of small preview icons. The 'COMPONENTS' section is currently selected. At the bottom of the workspace are tabs for 'HTML' and 'LESS/CSS'. The right side of the interface features a panel for 'PAGE' and 'SELECTION' settings, including sections for 'ATTRIBUTES' (with fields for ID, CLASS, and HREF), 'BOOTSTRAP' (with a 'HIDE' button for different screen sizes), and 'STYLE' (with a 'CURRENT' dropdown set to 'None'). The overall theme is dark, with light-colored UI elements and icons.

Datawrapper

<https://www.datawrapper.de>

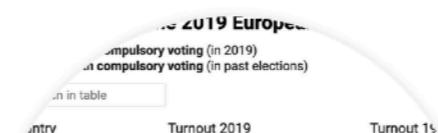

does its survey, which kept some workers at home. Additionally, the "retail apocalypse" of announced store closings meant that more jobs than normal left the economy during the month. This month, the disappointing March number was revised down from 98,000 to 79,000. But the April jobs report provides a bounce back in part because of warmer weather and fewer layoffs. The Labor Department reported gains in hospitality, mining, healthcare, and finance. Including the revisions for the February and March reports, an average of 174,000 jobs were added per month over the last three months.

Monthly Changes in U.S. Employment (Non-Farm), 2006-2017

The Atlantic

³ An interest-rate hike in June now looks more likely.

Auch beim Berufsabschluss ist es ähnlich: 27 Prozent der Migranten mit Migrationshintergrund haben keinen Beruf gelernt und kein Studium abgeschlossen, deutlich mehr als unter den Deutschen ohne Migrationsgeschichte. "Tendenziell sind die Neuzuwanderer besser qualifiziert als die Migranten, die seit 20, 30 Jahren hier leben", sagt Migrationsforscher Brücker. "Deshalb sind bei Abitur und Hochschulabschlüssen die Anteile zwischen vergleichbar mit der deutschen Bevölkerung." Mit den Flüchtlingen habe sich das Qualifikationsniveau der Neuankömmlinge jedoch verschlechtert, legte daran, sagt Brücker, dass es in den meisten Herkunftsstaaten ein duales Ausbildungssystem wie in Deutschland gebe.

Migranten und ihre Kinder verdienen weniger

(11 hours ago)

Global Carbon Emissions (Copy) (4 days ago)

How densely populated is Europe? (a month ago)

Changelog

AUGUST 16 / MAPS

Added Regional Electoral Districts for Saxony and Brandenburg, **Germany**.

AUGUST 14 / MAPS

Added Circuit Courts for **USA**.

AUGUST 13 / PIE CHART

Pies and donuts now take up full width when displayed on mobile.

AUGUST 13 / LINE CHART, AREA CHART, SCATTERPLOT

Renamed "x-axis" to "horizontal axis" and "y-axis" to "vertical axis", because everyone confuses them with each other sometimes.

Website Tracking

Global Site Tag (gtag.js)

This is the Global Site Tag (gtag.js) tracking code for this property. Copy and paste this code as the first item into the <HEAD> of every webpage you want to track. If you already have a Global Site Tag on your page, simply add the `config` line from the snippet below to your existing Global Site Tag.

```
<!-- Global site tag (gtag.js) - Google Analytics -->
<script async src="https://www.googletagmanager.com/gtag/js?id=UA-20477509-1"></script>
<script>
  window.dataLayer = window.dataLayer || [];
  function gtag(){dataLayer.push(arguments);}
  gtag('js', new Date());

  gtag('config', 'UA-20477509-1');
</script>
```

The Global Site Tag provides streamlined tagging across Google's site measurement, conversion tracking, and remarketing products – giving you better control while making implementation easier. By using gtag.js, you will be able to benefit from the latest dynamic features and integrations as they become available. [Learn more](#)

Google Tag Manager

Our free tool Google Tag Manager can help you add tags to your site if you have many analytics and tracking tags. Consider using Google Tag Manager if:

- You use multiple analytics and ad performance tracking tools that require site tags.
- Adding tags to your website slows down your ability to run marketing campaigns.

[Learn how to get started with Google Tag Manager.](#)

Goal description

This screenshot shows the Google Analytics Admin interface. On the left, there's a sidebar with various icons and links: View Settings, User Management, Goals (which is selected and highlighted in red), Content Grouping, Filters, Channel Settings, Ecommerce Settings, and Calculated Metrics (BETA). The main area is titled 'ADMIN' and shows a 'View' section with a '+ Create View' button. Below this, there are sections for 'ENGAGEMENT' (Media play, Share / social connect, Newsletter sign up) and 'Smart Goal' (Smart Goal not available, with a note about using engagement data for Google Ads bidding). A 'Custom' option is also shown. At the bottom, there are 'Continue' and 'Cancel' buttons, and a step indicator '2 Goal description'.
